Dear Friends:

The Salvation Army is thankful for the generous donation to the Haiti Earthquake Disaster. Your confidence in our work is greatly appreciated. 100% of the donation will be used to assist with relief goods needed in Haiti.

At present, teams are working in medical clinics and helping distribute aid to people who need it most. Water, food and medical supplies are now being shipped to help with relief programmes. Two warehouses are available to hold supplies and equipment. The Salvation Army has secured a building at the end of the runway in Port-au-Prince. The building is secure and provides 16 rooms for sleeping, cooking and a media room for disaster teams.

We thank you for your kindness and concern for others whose lives have been affected by this horrific tragedy.

Sincerely

Betty Spearman
